Drum Buddy - a modern cable drum accessory

Ergonomic and industrial cable accessory that makes it easier for one person to handle a drum up to 200kg without straining their back. The Drum buddy can be fitted with any K6 or smaller drum (using an adapter). Replacement of a new drum can be quickly and easily handled by one person.

Accessory

DRUM BUDDY

Construction

Frame	30mm diameter steel pipe
Coating	Powder coated for outdoor use
Colour	RAL 1021
Wheel	Fixated to the wheel axle using locking pins with outer covering capsule,
Tire	Solid polyuretane, 380mm in diameter, puncture free, yellow
Adapter	Metal pipe with 2 aluminium discs and 2 splitters for fixating the adapter to the frame. Please note the adapter is needed for using smaller than K6 drums.
Break	Foot operated break to lock both wheels simultaneously.
Size	Standing height 117 cm, width 70 cm
Weight	24 kg. Max. load capacity including drum - 200 kg

User instructions

When installing a new cable drum unlock the cable drum fasteners.

If adapter is used, remove adapter by opening the drum fasteners or pull out the adapter pipe from its holder. Slide the adaptor pipe through the center hole of the drum. Secure the AL discs against the drum with thumbscrews.

Tip the empty Drum Buddy frame over the drum and lock the cable drum fasteners into the center hole of the drum.

Please note that the Drum Buddy should not be used without locking both fasteners safely secured in both sides of the drum in order to prevent the drum from falling off the frame.

After attaching the drum to the frame, tip the Drum Buddy back up into standing position, using the handle.
